# Topics

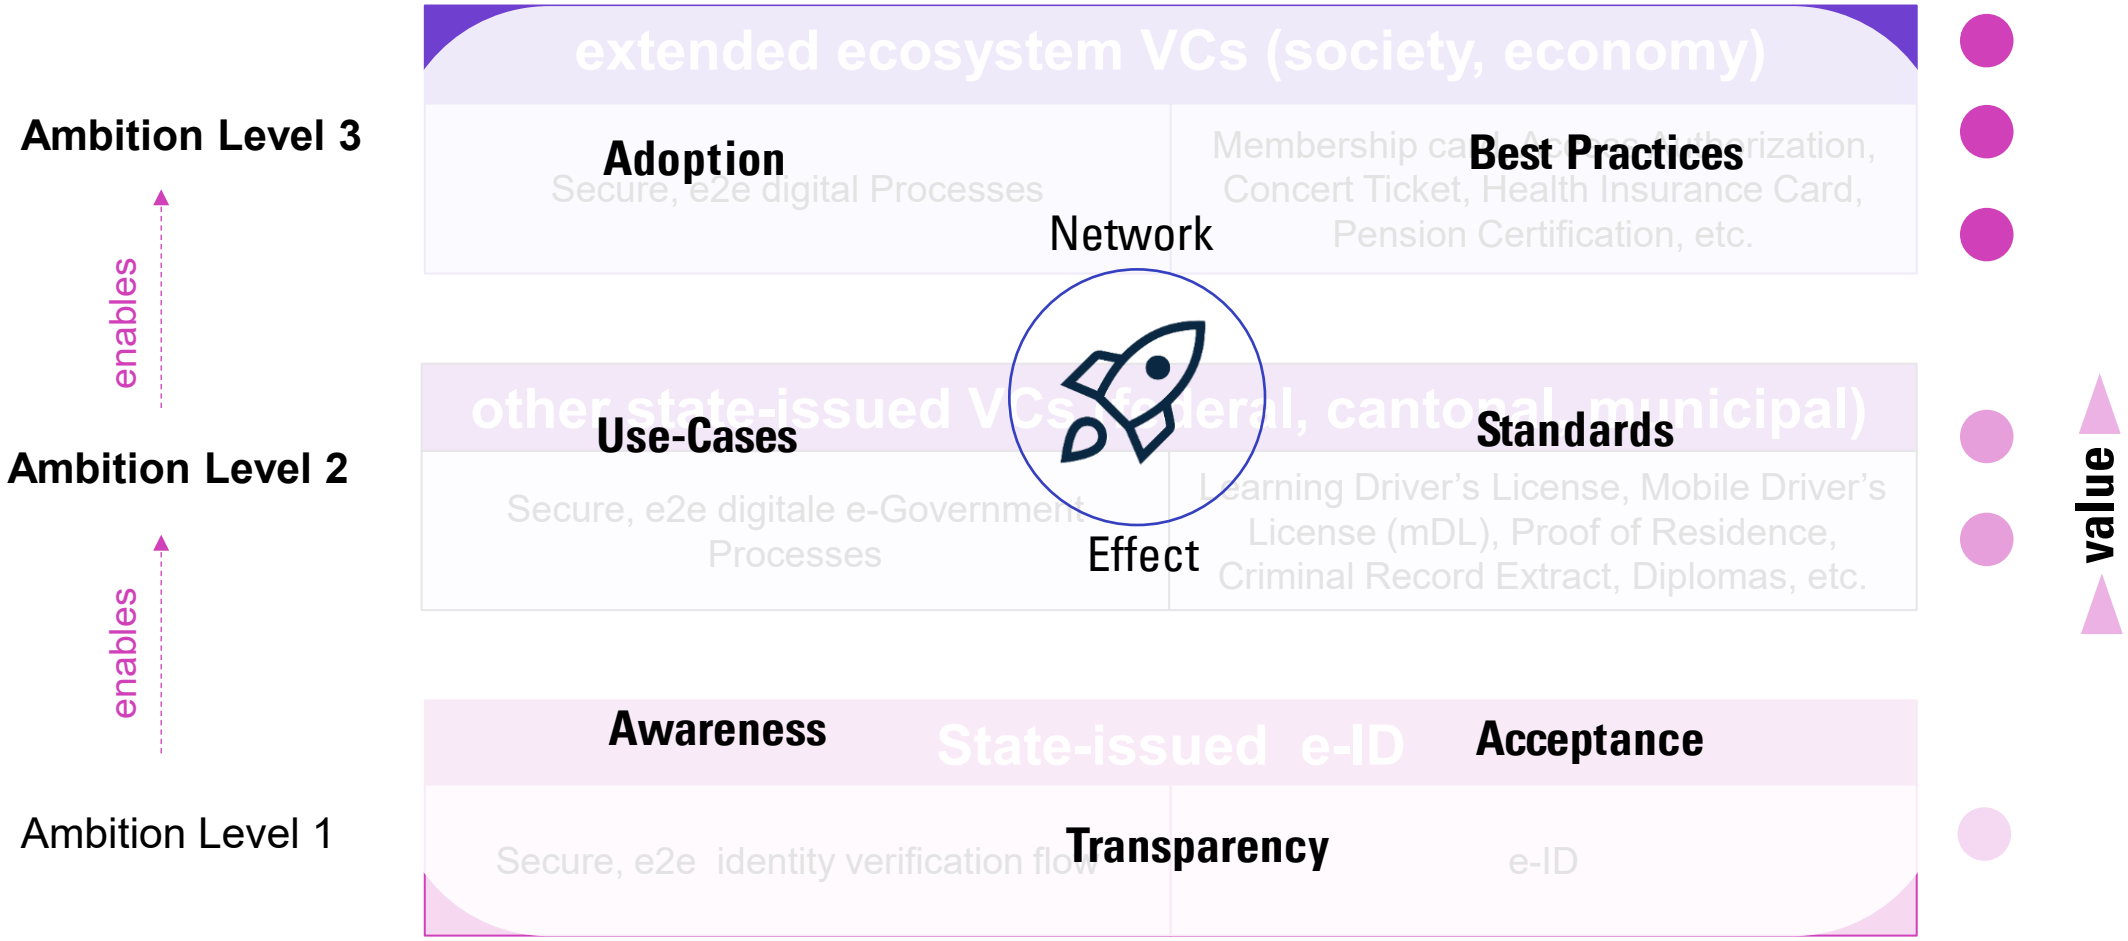
- Why VC Catalog?
- High Level Vision Overview
- Brainstorming & Feedback

# VC Catalog – Motivation

| | | |
|---|---|---|
| **Ambition Level 3** | **extended ecosystem VCs (society, economy)** | |
| | Secure, e2e digital Processes | Membership card, Access Authorization, Concert Ticket, Health Insurance Card, Pension Certification, Employment, etc. |
| enables | | |
| **Ambition Level 2** | **other state-issued VCs (federal, cantonal, municipal)** | |
| | Secure, e2e digitale e-Government Processes | Learning Driver's License, Mobile Driver's License (mDL), Proof of Residence, Criminal Record Extract, Diplomas, etc. |
| enables | | |
| Ambition Level 1 | **State-issued e-ID** | |
| | Secure, e2e identity verification flow | e-ID |

**value**

# SWIYU – What's needed for Success?



# Preliminary Study

**Thesis**: Verifiable Credentials (VC) Catalog should enable the success factors for establishing and growing adoption of SWIYU at Level 2 and Level 3

accelerate.swiss is conducting a preliminary study (Vorstudie) for DVS (Digitale Verwaltung Schweiz)

**Our Goals**

- Define high-level vision for the “Verifiable Credentials Catalog”
- Validate this vision with the boarder community
- Propose implementation roadmap, including required processes and methodologies

# VC Catalog – High Level Vision

SWIYU VC Community "Marketplace" – Web Portal, Catalog Search & API access to:

- Which VCs exists
- Which VCs are needed
- Thematic Events Calendar
- Use-Case Showcase

- VC Issuers
- VC Verifiers
- VC LoA & Governance
- PII & Compliance Declarations

- VC Attributes
- Semantic Schemas

*Adoption* *Awareness* *Use-Cases* *Acceptance* *Best Practices* *Standards*
