Lighthouse Project

5.11.2026 Swiyu Participation Meeting

David Sichau ETH Zürich

LIGHTHOUSE PROJECT

Studi VC

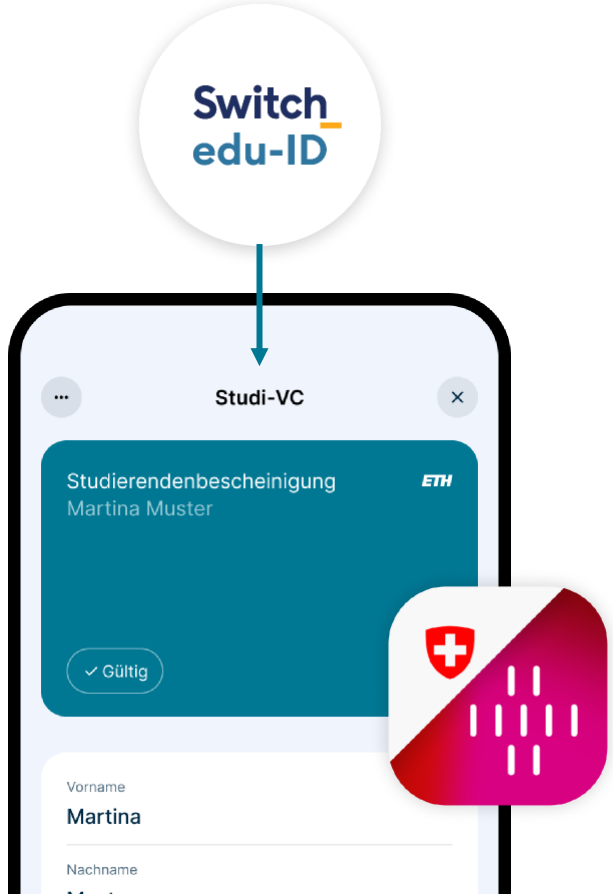

Simple Student Certificate

The Idea

Higher education institutions issue a digital **student certificate** into the swiyu ecosystem.

Companies can seamlessly verify student status **without disruptions** or **manual verification**.

Together, we gain **hands-on experience** with cross-sector Verifiable Credentials right at the launch of the swiyu trust infrastructure.

LIGHTHOUSE PROJECT

Studi VC

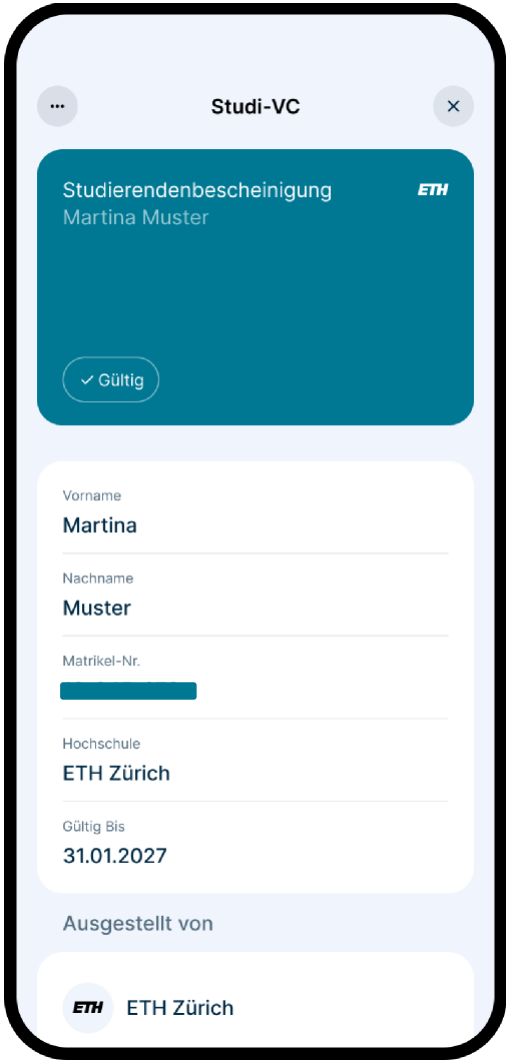

Simple Student Certificate

The Proof (VC)

The proof certifies that Person X is a student at University Y in Semester Z.

The proof contains the following attributes:

- First name
- Last name
- Issuing university
- Expiration date (end of semester)

LIGHTHOUSE PROJECT

Simple Student Certificate

Technical Solution

- Students obtain the digital student credential via a website.
- Required data (e.g., enrollment status and university) is automatically fetched from SWITCH.
- The resulting Verifiable Credential is issued directly into the swiyu wallet.
- The credential can be requested and verified seamlessly in digital workflows.

Timeline

- **Nov 2026 – Silent Launch**
  System available for testing as of November 2026.
- **H1 2027 – Public Launch**
  Public announcement aligned with the rollout of the Swiss e-ID / trust infrastructure (expected H1 2027)
.
- **Project Duration / Operational Period**
  Planned timeline of 2–3 years.

Swiss Businesses as Verifiers

All Swiss companies are invited to participate in the project and benefit from it.

- **Free participation:** Companies can join the Lighthouse project free of charge and gain hands-on experience with the swiyu ecosystem.
- **Customer acquisition:** Businesses can verify the status of **100’000** students without manual effort.
- **Seamless digital workflows:** Standardized credential in the swiyu ecosystem, integrable into digital processes without media breaks.
- **Instant verification:** Verify student status digitally in your online flows (e.g., for student discounts or special promotions)—no paper certificates or manual checks required.
